

└ We are
Recruiting

Do you have a curious mind, relish responsibility and a challenge, seek to make the world safer, healthier and more efficient?

Then join us and help create the future.

smiths interconnect
bringing technology to life

Global Capabilities

Smiths Interconnect is a leading provider of technically differentiated electronic components, subsystems, microwave and radio frequency products that connect, protect and control critical applications in the commercial aviation, defence, space, medical, rail, semiconductor test and industrial markets.

Employing over 2,000 people globally our in-house capabilities encompass design, development, manufacturing and testing to respond quickly and accurately to customers' needs, and provide the most reliable connectivity solutions.

Our mission is to be the global partner for innovative connectivity solutions.

Great Career Opportunities

Whether you're an experienced professional or just starting out, our global scale and focus on growth means great career opportunities for the right colleagues. We have exciting opportunities within research and development, sales and marketing, operations and support functions such as finance and human resources. There's never been a better time to join Smiths Interconnect!

Our global scale and focus on growth means great career opportunities for the right colleagues

Early Career Programmes

Our early career programmes offer the opportunity to work for a global business gaining hands-on experience on real projects. If you're an innovative thinker who can be strategic and analytical, but also hit the ground running and contribute from day one, we want to hear from you!

Experienced Professionals

As an experienced professional, enhance your career development by joining a team that is focussed on solving the mission-critical challenges of our customers and is committed to developing your personal and professional skills.

Proud to be Smiths

We are united by our Smiths values of integrity, respect, ownership, customer focus and passion. These values guide our every decision and action as we work towards making Smiths one of the world's leading technology companies.
